

Air Quality Index

96

PM10

127

PM2.5

108

CO

20

- PM2.5 rating shows high air pollution.
- PM10 rating indicates very poor air quality.
- CO rating shows dangerous carbon monoxide levels.

Recommendations are:

- Buy an air purifier.
- Wear pollution masks outdoors.
- Stay indoors on bad air days.
- Consider installing CO detectors.
- Get regular health check-ups.
- Plant indoor air purifying plants.
- Consider a location change due to pollutants.
